2006 is an Exciting and Important Year for New Hampshire Democrats:

2006 is a critical year because New Hampshire Democrats have an opportunity to:

Replace ineffectual congressmen Charlie Bass and Jeb Bradley because:

- They have become part of the culture of corruption, taking and giving money to Tom DeLay.
- Working harder for the special interests, including big oil companies, than they do for the working families of New Hampshire.
- Privatizing social security is NOT the way to ensure that the most successful social program in our country's history remains strong.

Our Democratic candidates are great because:

- They understand that in Washington they represent New Hampshire and not the political agenda of the White House, Texas, or big oil companies.
- They will protect our environment, create jobs, and bring integrity back to Congress.
- Although there will be primaries in both the 1st and 2nd Congressional Districts, any one of our Democratic candidates is more qualified than Jeb Bradley or Charlie Bass.

Re-elect Governor Lynch:

- Governor Lynch has restored integrity and openness to our state government.
- He has made real accomplishments as governor, such as fighting to repeal SB110, thereby stabilizing health care costs for New Hampshire businesses and ratepayers.
- During the recent flood in Cheshire and Sullivan counties and through the battle to keep open the Portsmouth Naval Shipyard, Governor Lynch has shown that he is a hands on Governor who cares about the working families of New Hampshire.

- We have to stand with Governor Lynch and let any Republican fool hearty enough to challenge him in next year's election that real leadership is about action, and not empty rhetoric.

We must take back the state senate next year:

- Republicans are interested in politics, not people.
- Our Democrats, led by Senator Larsen have successfully worked with Governor Lynch pass a fair and balanced

budget, lower health care costs, and protect our environment by reducing mercury emissions that pollute our air and water.

According to a recent Survey USA Poll, George Bush's disapproval rating in New Hampshire is over 60%. Governor Lynch's approval ratings meanwhile are OVER 60%. The people of New Hampshire want results, not special interest driven politics that ignore the real needs of our state and nation.

We can elect New Hampshire Democrats up and down the 2006 ticket if we sign-up now, work together, contribute and back our fine Democratic team.
