

TOGETHER, FAMILIES IN CONNECTICUT CAN DO BETTER

Today, American families are struggling because the Bush White House and the most corrupt Congress in history have failed to focus on America's priorities. The basic American values we all share are not being honored: honesty and integrity in our government, economic prosperity, a strong national defense, a health care system that works for everyone, fiscal responsibility, and a strong public education system. Democrats are united, focused and totally committed to taking the bold steps necessary so that American families can rebuild the communities that are the heart of our democracy. Together we can stand for honesty, hard work, respect, and opportunity for all Americans. Together, families in Connecticut can do better.

American Jobs That Will Stay in America. Over 16,800 jobs and 37,900 manufacturing jobs have been lost in Connecticut, with 87388 looking for work. [BLS, 1/06] But Republicans have missed every opportunity to jump-start our economy, instead insisting that our economy has turned the corner. Democrats would promote prosperity by creating new jobs, enacting middle class tax relief, and rewarding companies that create jobs here at home.

Lowering Energy Costs and Our Dependence on Foreign Oil. Home heating oil prices are expected to increase by 67 percent in Connecticut's region of the country as compared to prices in 2000, and gas prices have increased by 64 cents in Connecticut since May of 2004, an increase of 30 percent. [EIA, 1/06; AAA Fuel Gauge Report, 1/06 and 5/04] Republicans have failed to address high energy costs, passing an energy bill with billions of dollars in subsidies for big oil and gas companies. Democrats are fighting to lower energy costs and decrease our dependence on foreign oil.

Balancing the Budget. The national debt has increased to \$8 trillion, but instead of returning to fiscal sanity, Republicans are preparing to force through an extension of the capital gains and dividends tax break that would provide the wealthiest one percent of the families in Connecticut with a tax cut worth \$32,338 in 2010, while the middle 20 percent of taxpayers, with an average income of \$58,600, would get \$77. [CTJ, 11/18/05] Democrats will demand accountability from Congress by restoring fiscal responsibility.

Strong National Defense. Over 1,717 brave men and women from Connecticut are serving their country in Afghanistan and Iraq. [DOD Legal Residence/ Home of Record for Service Members Deployed, 1/06] But Republicans failed to provide members of our military with the resources and equipment they need to complete their mission successfully and come home safe. They have shut 5,419 veterans in Connecticut out of the VA health care system completely. [VHA Policy & Forecasting 2/24/03, Projected to FY2005] And they refused to end the Disabled Veterans Tax, passing a false promise of a plan that undermines a secure retirement for 1,166 veterans in Connecticut. [Veterans Administration / Democratic Leader's Office, 6/05] Democrats would enhance our national security with a strong military, sound diplomatic alliances, new resources for our first responders, and tighter security at our ports.

Health Care System That Works for Everyone. There are 407,000 people without health insurance in Connecticut, a 77,000 increase since 2000. [CPS, 10/05] During that time, the cost of health insurance has increased by 1,009 – a 65 percent increase. [KFF 2005; MEPS 2005] But Republicans have refused to take action to lower health care costs. Democrats would create a health care system that works for everyone by lowering the cost of health care and eliminating tax loopholes so everyone pays their fair share.

Strong Public Education. Because Republicans have failed to provide promised funding for education reforms, 22,152 children in Connecticut have gone without help in reading and math and 14,102 have gone without after-school programs that boost academic achievement and keep kids safe. [CRS, 1/2006] If we want American jobs to stay in America, we have to have more American children succeeding in sciences, math and literacy. Democrats would provide opportunity through high quality early childhood education, strong public schools, and affordable college education.

Retirement Security. Social Security provides financial security and peace of mind to 581,160 people in Connecticut. [NWLC 2/05] President Bush and Republicans in Congress tried to undermine the guarantee of Social Security for people in Connecticut, but Democrats fought back to protect Social Security for everyone.
