

TOGETHER, FAMILIES IN NEW HAMPSHIRE CAN DO BETTER

Today, American families are struggling because the Bush White House and the most corrupt Congress in history have failed to focus on America's priorities. The basic American values we all share are not being honored: honesty and integrity in our government, economic prosperity, a strong national defense, a health care system that works for everyone, fiscal responsibility, and a strong public education system. Democrats are united, focused and totally committed to taking the bold steps necessary so that American families can rebuild the communities that are the heart of our democracy. Together we can stand for honesty, hard work, respect, and opportunity for all Americans. Together, families in New Hampshire can do better.

American Jobs That Will Stay in America. Over 21900 manufacturing jobs have been lost in New Hampshire, with 26003 looking for work. [BLS, 1/06] But Republicans have missed every opportunity to jump-start our economy, instead insisting that our economy has turned the corner. Democrats would promote prosperity by creating new jobs, enacting middle class tax relief, and rewarding companies that create jobs here at home.

Lowering Energy Costs and Our Dependence on Foreign Oil. Home heating oil prices are expected to increase by 67 percent in New Hampshire's region of the country as compared to prices in 2000, and gas prices have increased by 67 cents in New Hampshire since May of 2004, an increase of 34 percent. [EIA, 1/06; AAA Fuel Gauge Report, 1/06 and 5/04] Republicans have failed to address high energy costs, passing an energy bill with billions of dollars in subsidies for big oil and gas companies. Democrats are fighting to lower energy costs and decrease dependence on foreign oil.

Balancing the Budget. The national debt has increased to \$8 trillion, but instead of returning to fiscal sanity, Republicans are preparing to force through an extension of the capital gains and dividends tax break that would provide the wealthiest one percent of the families in New Hampshire with a tax cut worth \$18,076 in 2010, while the middle 20 percent of taxpayers, with an average income of \$55,900, would get \$72. [CTJ, 11/18/05] Democrats will demand accountability from Congress by restoring fiscal responsibility.

Strong National Defense. Over 1,786 brave men and women from New Hampshire are serving their country in Afghanistan and Iraq. [DOD Legal Residence/ Home of Record for Service Members Deployed, 1/06] But Republicans failed to provide members of our military with the resources and equipment they need to complete their mission successfully and come home safe. They have shut 13,338 veterans in New Hampshire out of the VA health care system completely. [VHA Policy & Forecasting 2/24/03, Projected to FY2005] And they refused to end the Disabled Veterans Tax, passing a false promise of a plan that undermines a secure retirement for 1954 veterans in New Hampshire. [Veterans Administration / Democratic Leader's Office, 6/05] Democrats would enhance our national security with a strong military, sound diplomatic alliances, new resources for our first responders, and tighter security at our ports.

Health Care System That Works for Everyone. There are 152,000 people without health insurance in New Hampshire, a 49,000 increase since 2000. [CPS, 10/05] During that time, the cost of health insurance has increased by \$960 – a 54 percent increase. [KFF 2005; MEPS 2005] But Republicans have refused to take action to lower health care costs. Democrats would create a health care system that works for everyone by lowering the cost of health care and eliminating tax loopholes so everyone pays their fair share.

Strong Public Education. Because Republicans have failed to provide promised funding for education reforms, 8,685 children in New Hampshire have gone without help in reading and math and 8,881 have gone without after-school programs that boost academic achievement and keep kids safe. [CRS, 1/2006] If we want American jobs to stay in America, we have to have more American children succeeding in sciences, math and literacy. We want to provide opportunity through high quality early childhood education, strong public schools, and affordable college education.

Retirement Security. Social Security provides financial security and peace of mind to 207,860 people in New Hampshire. [NWLC 2/05] President Bush and Republicans in Congress tried to undermine the guarantee of Social Security for people in New Hampshire, but Democrats fought back to protect Social Security for everyone.
